

# Historical

## **Purpose:**

The Historical Committee is responsible for finding and preserving documentation of the OYC history as well as for writing occasional Beachcomber articles to share that history with the OYC membership.

## **Chairperson Responsibilities:**

The Historical Committee is, most often, a single person with an interest in doing research into the history of OYC. Sources of information may include old newspaper and magazine articles, club documents and old membership directories, among others.

## **Bootstrap:**

In the event that the Historical Committee needs to be restarted without the guidance of a prior Historian, the incoming Historian will likely reinvent the position based on their interests and skills.
